## INTERNSHIPS

### THE MOE INDIA PVT LTD, February 2024 - January 2025

- I had an internship with this company for two months, where I worked as a Software Developer and also assisted in the Customer Support Executive role.

### Wingfotech LTD, April 2023 - January 2024

- As a Campus Ambassador for the organization, I oversaw and planned a variety of events, marketing initiatives, and student involvement projects. I was able to effectively promote the brand on campus while honing my leadership, coordination, and communication abilities in this job.

## PROJECTS

### Portfolio , November 2025 - November 2025

- this is my portfolio, which showcases my solid foundation in data handling, Java, Python, Web Development and many more . It is also shows all my completed certified courses, including advanced programs from Google in Data Analytics, Cybersecurity, and Digital Marketing, etc alongside technical certifications like Core Java and Python. My skills are demonstrated through my projects, the project which is completed and the projects that are in progress . My past experiences are detailed, covering my past roles. All my contact details and a link to my resume are provided for easy hiring.

### Jivasattvam Scan, January 2022 - May 2023

- The Jivasattvam Scan Analyzer functions as an innovative, remote health screening tool designed to facilitate early detection and management of deficiencies without requiring a trip to a hospital. By utilizing a non-invasive spectral analysis of an uploaded hand image, the application quickly identifies specific vitamin and nutrient deficiencies. The primary benefit lies in providing patients with immediate, actionable guidance, including a list of lacking vitamins, along with corresponding basic solutions and home remedies. This system empowers the user to address minor health imbalances in their initial stages directly from home, promoting proactive self-care and reducing the need for clinical intervention until more severe symptoms develop.

---
